Supported Employment Services

It is no secret that what we do during the work-day helps define who we are. Most people want nothing more than to have a job that makes use of their talents, provides money in their pocket and gives them the sense of pride that comes with holding down a job.

The Arc of Atlantic County Supported Employment Services helps people with intellectual and developmental disabilities to acquire and maintain competitive employment. Participants develop skills and employment goals with the help of a job coach. Your candle purchase supports this important program and helps people with developmental disabilities to live the lives they choose. Thank You!
